 Branches. Bedding in General.

1099 AND 1101 MAIN ST., BRIDGEPORT CONN.

Although a man may meet with the misfortune of having both of his legs severed from his body, it does not necessarily imply that he will never be able to walk and get about as other persons do. A pair of artificial legs with rubber feet will restore him to his former capacity.

The engravings represent Mr. James McDonald, of Mamaroneck, New York, who wears two artificial legs. He is so ready on his artificials that many of his neighbors are not aware of the absence of his natural legs.

The latest information we have received from him informs us that he can dance, ride a bicycle, and skate nearly as well as if he had his natural legs.

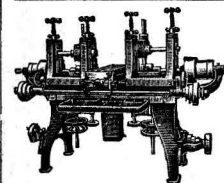

With the old methods of complicated ankle-joints, such perfection could not be obtained, but with Marks' patent rubber feet, he is practically restored.

Over 22,000 in use, scattered in all parts of the world; most of which have been made from measurement without the presence of the wearers. Our new illustrated measuring sheet, which any one can easily fill out, supplies all the data necessary.

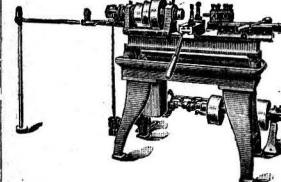

The press, eminent surgeons, and competent judges commend Marks' patent rubber foot and hand for their remarkable advantages. **Received thirty highest awards.**

A treatise containing 530 pages with 800 illustrations and new illustrated measuring sheet sent gratis. Address

## BRIDGEPORT STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained, as for instance, wishing to know at what part of Main street No. 946 comes, turn to Main street and you will find that Bank street runs from 934 right side, and Wall street from 1003, showing that number 946 comes on the right side of Main street, between Bank and Wall.

**Adams**, from the harbor west to 634 Seaview av, Dist. 12  
102 Newfield av

**Admiral**, from 460 Iranistan av south-west to Harbor, Dist. 2  
— McNeil  
— Carbon

HISTORIES OF WATERBURY AND HARTFORD, CONN.

# THE BRIDGEPORT HOUSE DIRECTORY

## EXPLANATORY NOTES.

In the House Directory residences and places of business are designated by their street number, and are arranged in numerical order.

The streets are arranged in alphabetical order.

Names are given of all business houses and householders.

A dash (—) that no number has been assigned.

The abbreviation r between the street number and the name signifies "rear."

BRIDGEPORT, CT.  
CLUB TOE CLIP.

## THE "GIANT" METAL SASH CHAIN,

A Substitute for Cord in Hanging  
Weights to Windows.

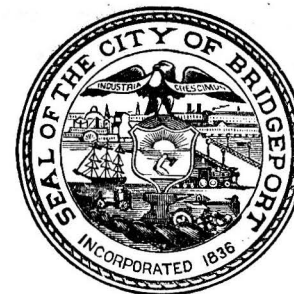

It is manufactured by us only, and by automatic machinery patented and owned exclusively by ourselves, whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent any other chain, of the same patent of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "GIANT" as a Trade Mark, as applied to either metal or chain. Trade Mark Registered April 26, 1878, and October 22, 1878, and our Metal is therefore known in the market as "GIANT METAL," and our chain as "GIANT METAL SASH CHAIN."

No. 1900.

## BICYCLE WRENCH

This Wrench contains our latest improvements. It is made of hardened Steel and Nicked over a copper plating. Extra fine finish and in every way stronger than the ordinary wrenches now on the market. Sent Postpaid anywhere in the United States on receipt of twenty-five cents.

[Municipal Election First Monday in November.]

corner; thence to the Madison road and with it to the point covered by the city delivery at the intersection of Lincoln and Marion streets.

**Mail Routes**—Easton and Adams Plattsville, Conn. (Daily), Willis Brotherton, Sub-Contractor. Huntington and Nichols (Daily); Anson S. Smith, Contractor.

**Mailable Matter**—Mailable matter is divided into four classes, viz.: First Class—This class embraces letters, sealed packages wholly or partially in writing, except book manuscript with corrected proof, passing between authors and publishers, local or drop letters and United States postal cards. Second Class—This class embraces all matter exclusively in print and regularly issued at stated periods from a known office of publication, without addition by writing, mark or sign. Third Class—This class embraces books, transient newspapers and periodicals, circulars and other matter wholly in print, proof sheets, manuscript copy with corrected proofsheets, accompanying the same. Fourth Class—This class embraces all matter not embraced in the first, second or third class, which is not in the form of matter liable to injure, deface or otherwise damage the contents of the mail bag or injure the person of any one engaged in the postal service, and is not above four pounds in weight, except in case of single books. All packages of matter of the fourth class must be so wrapped or enveloped that their contents may be readily and thoroughly examined by postmasters, without injuring or destroying the wrappers; but seeds and other articles, liable from their form or nature to loss or damage, unless specially protected, may be enclosed in unsealed bags or boxes, which can readily be opened for examination and reclosed; or sealed bags made of material sufficiently transparent to show the contents clearly, without opening, may be used for such matter.

**Rates of Postage**—United States letters per ounce or fraction thereof, 2 cents; transient newspapers and magazines, 1 cent for each four ounces or fraction thereof; unsealed circulars, etc., 1 cent for every two ounces or fraction thereof; merchandise (weight limited to four pounds), 1 cent per ounce or fraction thereof; drop letters, per ounce or fraction thereof, 2 cents.

**Postal Cards**—The postage is paid by the stamp impressed on the cards, and no further payment is required. The address may be either written, printed or affixed thereto, at the option of the sender. No card is a "postal card" except such as are issued by the Post Of-

fice Department. An ordinary printed business card may be sent through the mails when prepaid by a 1 cent postage stamp attached, but such card must contain absolutely no written matter except the address; otherwise it will be treated as not full prepaid, and refused admission to the mails.

**The Following Articles Are Unmailable**—Packages containing liquid, poisons, glass, explosive chemicals, live animals, razors, sharp-pointed instruments, sugar, or any other matter liable to destroy the contents of the mail, or injure the person of anyone connected with the service. All letters, upon the envelop of which, or postal cards, upon which obscene, scurrilous or abusive epithets have been written or printed, or disloyal devices printed or engraved, and letters and circulars concerning illegal lotteries, so-called gift concerts, or other similar enterprises offering prizes or concerning schemes devised and intending to deceive and defraud the public. All obscene and lascivious books, pamphlets, pictures, papers, prints, or other publications of any indecent character. Liquids and oils (not exceeding four ounces, liquid measure), paste, salve, or articles easily liquifiable, and sharp pointed instruments are permissible through the mails under certain conditions, such as weight, packing, etc. For full particulars see Section 20, P. L. & R., or inquire at the Post Office.

# FACTS!

Don't be misled by rival ad solicitors when they start in to run down the circulation of the Telegram, just call up the Telegram office and let their ad-man have a chance to bury the solicitor with facts.

When we say that The Telegram's circulation is the largest in the morning field, we mean it. No bluffing, we don't have to lie to get business. It comes our way on its merits.

The Morning Telegram is read daily in more homes in Bridgeport than any other morning paper printed or sold in this city.

Advertising rates furnished upon application.

## Hot and Cold Rolled Bessemer Open-Hearth and "Swedoh" Steel.

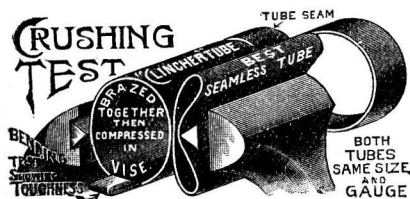

In every variety of grade and temper, unexcelled for  
PRESSED, STAMPED, DRAWN AND PLATED WORK.

Seamless "SWEDOH" STEEL "Copperized"  
and Nickle-Plated

## OILERS, LAMPS, ENGINEERS' AND STEAMBOAT SETS, Etc.

"Brass Lined" (Anti-Rust) "Clincher" Cycle Tubing  
the strongest and most rigid in the World, made from Fifty Carbon  
"Swedoh" Spring Steel (too strong to draw into Seamless Tubes) and  
produced with only about One-Tenth the number of heatings usually em-  
ployed in the manufacture of Seamless or Weldless Tubing Thus Preserv-  
ing the Quality of the material used.

### THIS ACCOUNTS FOR ITS SUPERIOR STRENGTH.

The joint is invisible to the naked eye, being thoroughly dovetailed by lateral displacement of the parts or molecules of metal in the clinching of teeth, thus producing to all intents and purposes a SEAMLESS TUBE. It is entirely independent of brazing, which however is resorted to for the purpose of procuring a smooth-

ness of surface at the joint necessary for taking a satisfactory enamel.

All tubes accurately sized, straightened, cut to exact length, and most rigidly inspected before shipping. "Clincher" Joint Spring Steel FRONT FORKS, REAR FORKS and STAYS furnished in any diameter or gauge, size or shape.

### For Beautiful Work, Simplicity and Durability,

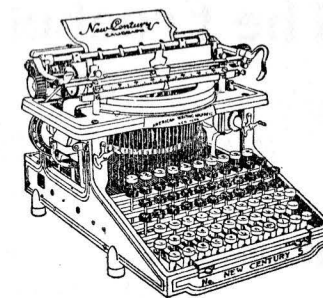

we recommend the No. 4 Yost as a writing machine unexcelled; no ribbon required, prints direct from the face of the type, and always maintains perfect alignment; you cannot afford to ignore the YOST when in the market for a writing machine.

If your Writing Machine at any time needs repairs, remember the factory is surely the best place to have such work done.

### The New Century Typewriter.

The latest and most up-to-date writing machine yet made. Nothing has been omitted to make it the ideal instrument for all business purposes that a writing machine can be used for; we guarantee it and our guarantee is good as gold. Before you purchase a writing machine Try a New Century; it will cost you nothing to try it.

**THE BERNHARD SYSTEM  
 OF BOILER SETTING.**

Patented in the United States and Canada Dec. 7th, 1897.

**Costs no more than the Ordinary Setting, and  
 Much Less to Keep in Repair.**

**ALL MOVEMENT** due to expansion and vibration is provided for; the boiler **DOES NOT TOUCH THE SETTING** at any point. The setting **WILL NOT** crack or crumble; the walls are **ALWAYS COOL**, and its use has invariably resulted in a **SAVING IN FUEL** as well as in **REPAIR BILLS**.

The boiler is closed in by a non-conducting covering supported by wire netting, perfectly flexible, durable and gas tight.

Mr. Lewis Bernhard, Bridgeport, Conn.

DEAR SIR: The Boiler Setting that you furnished for our new 150 H. P. Lowe Boiler is one of the most satisfactory pieces of work that we have ever had done. We take great pleasure in recommending your work. We also take great pleasure in recommending yourself as a thoroughly honest, reliable man, who keeps his word in every particular.

Yours very truly,

THE PORT CHESTER BOLT AND NUT CO.,

W. L. WARD, Manager.

Correspondence and Inquiry are Solicited from Boiler Users  
 and Masons who make a Specialty of Boiler Settings.

Also Mason and Builder.

## ELISHA GREGORY, 60 LIBERTY ST., NEW YORK, CONTRACTOR FOR SINKING ARTESIAN WELLS.

### TORPEDOING WELLS A SPECIALTY.

ABSOLUTE SAFETY  
GUARANTEED BY OUR  
NEW PROCESS OF NON-  
VITALIZED HIGH EXPLO-  
SIVES.

I use the same portable  
rigs and derrick used in the  
oil regions, capable of drilling  
one foot to 3,000 or more feet;  
portable rig for 500 feet or less  
and derrick from 500 feet to  
any depth required.

Therefore no going down  
100 feet or so and having to  
abandon the work, as a great  
many frequently do, that  
have small rigs, as hundreds  
of unfinished wells through  
the country testify to, or small  
wells that ought to be fin-  
ished in four weeks that have  
taken three or more months  
to finish with Grasshopper  
Rigs.

Gas Furnaces for Heating  
Tinnners' Coppers.

WILL NOT BLACKEN THE COPPERS. CAN BE REGULATED TO  
SUIT; SAVES GAS AND LABOR.

### AUTOMATIC SCUTTLE AND SKYLIGHT OPENER.

In placing this Opener before the Public,  
we wish to call attention to some  
of its merits:

- 1—It can be easily opened from floor below and will remain open.
- 2—It is operated with one rope, which both opens and closes Scuttle or Skylight.
- 3—When closed it is **Self-locking**, having two bolts, making it impossible to open same from roof.
- 4—In case of **Fire** there is no climbing of ladder to unlock Scuttle. One pull of the rope opens bolts and Scuttle, which remains open, allowing people to escape by way of roof.
- 5—It can be partially opened (for ventilation), without the inconvenience of climbing up ladder to unfasten bolts.
- 6—It is made of wrought and malleable iron, and constructed so that it will not break or get out of order.
- 7—It is simple in construction, and can be put up at a small cost.

### VENTILATING SASH LOCK.

Upper or Lower Sash or Both can be opened for Ventilation, and Lock will Fasten them to Window Frame so they cannot be Opened from Outside. To Lock Sash, Pull Lever; To Release, Push Button.

### THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST: To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

SECOND: To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive such publishers out of the business.

THIRD: To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH: For the mutual advancement of the established and prospective interests of all who may become members of the association.
